

FARJANA AKTHER KOLY

Aspiring PhD | Oceanography Graduate | Research Support | Field & Data Handling Assistant

Dhaka, Bangladesh | farjanakoly.ocn04@gmail.com | +880 1751 160279

[LinkedIn](#) | [Portfolio](#) | | ResearchGate: [FarjanaKoly](#)

PROFESSIONAL SUMMARY

Research Assistant candidate with a BSc in Oceanography and Hydrography from Bangladesh Maritime University and current MSc study in Oceanography. Experienced in literature searches, systematic-review-style article screening, research data collection, data cleaning, GIS/Remote Sensing, Python/SPSS-based analysis, technical documentation, manuscript support, and report writing. Published researcher with experience in groundwater quality assessment, river ecosystem health, Sundarbans ecosystem assessment, climate change, coastal environment, and potential fishing zone studies. Prepared to support Green University of Bangladesh research teams through systematic literature review, data processing, laboratory/experimental assistance, reference management, proposal support, manuscript drafting, and ESD/course-related academic activities.

BEST MATCH WITH GUB RESEARCH ASSISTANT REQUIREMENTS

- Meets academic requirement with BSc CGPA 3.87/4.00, HSC GPA 5.00/5.00, and SSC GPA 5.00/5.00; meets age requirement of 21+ years.
- Available for office-based contractual work at Green University of Bangladesh, Rupganj, Narayanganj, and ready to work in alignment with defined research objectives and institutional timelines.
- Experienced in literature search, systematic-review-style article screening, literature matrix preparation, research documentation, manuscript support, and technical report writing.
- Skilled in research data collection, cleaning, organization, descriptive analysis, visualization, and interpretation using Python, SPSS, MS Excel, GIS/RS, and Power BI.
- Familiar with reference database organization, Zotero/Mendeley-based citation support, manuscript formatting, journal-guideline-based reference preparation, and research file management.
- Capable of assisting in laboratory/experimental activities, environmental sample handling, instrument-based measurement support, data recording, and quality checking.
- Prepared to support grant/project proposal preparation, concept notes, background sections, methodology outlines, work plans, project documentation, and ESD/course-related academic activities.
- Ready to collaborate with principal investigators, research teams, academic departments, and administrative units to deliver research outputs on time.

EDUCATIONAL QUALIFICATION

Degree/Exam	Institution/Board	Year/Status	Result
MSc in Oceanography	Bangladesh Maritime University	Ongoing; Expected 2026	Current MSc student
BSc in Oceanography	Bangladesh Maritime University	2023	CGPA 3.87/4.00
HSC (Science)	Sylhet Board	2019	GPA 5.00/5.00
SSC (Science)	Sylhet Board	2016	GPA 5.00/5.00

RESEARCH EXPERIENCE

Research Assistant | Bangladesh Maritime University (BMU) | 2025 - Present

- Conduct literature searches, article screening, research documentation, data organization, and technical report preparation for environmental and climate-related research activities.
- Support systematic-review-style workflow through keyword search, literature matrix preparation, synthesis of findings, and reference list organization.
- Collect, process, clean, and organize research datasets using MS Excel, Python/SPSS, GIS/RS tools, and statistical/visualization software for descriptive analysis, figures, tables, and interpretation.
- Assist in drafting manuscript sections, including literature review, methodology support, results interpretation, table/figure captions, discussion notes, and reference formatting.
- Prepare project summaries, presentation materials, seminar/workshop documents, figures, tables, and research communication outputs for supervisors and research teams.
- Support proposal-related documentation, including background writing, literature synthesis, objective framing, methodology outline, work plan, and supporting documents.

Researcher | Hydro-Climate & Ocean Center (HCO) | 2025 - Present

- Contribute to climate, coastal, and environmental research assignments through literature review, data analysis assistance, documentation, and technical writing.
- Prepare research notes, field-related summaries, project briefs, data summaries, and written outputs in collaboration with senior researchers.
- Assist in interpreting environmental datasets and preparing research outputs aligned with defined project objectives.

Researcher | National Oceanographic and Maritime Institute (NOAMI) | 2023 - 2024

- Participated in field and desk-based research assignments involving data collection, reporting support, and multidisciplinary research communication.
- Assisted in preparing research documentation, data summaries, field-related outputs, and organized project records.

RESEARCH SKILLS AND TECHNICAL TOOLS

Literature & Systematic Review: Google Scholar search, database search, keyword development, article screening, inclusion/exclusion support, literature matrix, synthesis table, and PRISMA-style workflow familiarity.

Data Analysis & Cleaning: Python, SPSS, R, MATLAB, MS Excel, Origin Pro, Power BI; data entry, cleaning, descriptive statistics, visualization, tables, figures, and interpretation of research datasets.

GIS, Remote Sensing & Mapping: ArcGIS, ArcGIS Pro, remote sensing data handling, spatial visualization, environmental mapping, exposure/vulnerability mapping, and GIS-based map preparation.

Reference Management & Academic Writing: Zotero/Mendeley-based reference organization, citation formatting, manuscript formatting, journal guideline support, reference list preparation, and reference database organization.

Laboratory & Experimental Support: Spectrophotometer, CTD, Algal Torch, multiparameter instruments, AAS, environmental sample handling, instrument-based measurement support, data recording, and quality checking.

Teaching, ESD & Academic Support: Prepared to support ESD/course-related academic activities, class material preparation, attendance/record management, assignment tracking, presentation support, student communication, and academic documentation under departmental guidance.

SELECTED RESEARCH PROJECTS

Groundwater Quality Assessment in the South-Western Coast of Bangladesh | LEDARS | 2023 - 2024

Supported environmental data collection, hydrogeochemical data organization, analysis, interpretation, table/figure preparation, and technical documentation relevant to sustainable water management.

Ecosystem Health Assessment of Sundarbans | UGC Research Grants | 2024 - 2025

Supported ecosystem assessment through environmental data organization, documentation, indicator interpretation, and research output preparation.

River Ecosystem Health Assessment of Bangladesh | UGC Research Grants | 2024 - 2025

Supported river water quality and ecosystem health research through data handling, analysis support, technical documentation, and research output preparation.

Assessing Climate-Induced Shifts in Potential Fishing Zones to Strengthen Coastal Livelihood Resilience | CCDB Climate Project | 2025 - 2026

Supported literature review, GIS/RS-based interpretation, environmental data handling, documentation, and climate-related livelihood risk analysis.

PEER-REVIEWED PUBLICATIONS AND MANUSCRIPTS

Bangladesh Maritime Journal publication:

- Sunny, S. K., Koly, F. A., Ahammed, A. A., & Firdaws, S. J. (2024). Assessment of groundwater quality and its implications for sustainable water management in southwestern region of Bangladesh: A study in Mongla Upazila, Bagerhat on hydrogeochemical parameters. Bangladesh Maritime Journal, 10(1), 91-107. <https://doi.org/10.70279/bmj-v1-1097>
- Hasan, Md. A., et al. (2026). Assessing the dynamics of water quality and their implications on bio-chemical health of river ecosystem: A RS-based study of the Shitalakshya River, Dhaka. Bangladesh Maritime Journal, 10(1), 313-329. <https://doi.org/10.70279/bmj-v2-1124>

• Manuscripts under review:

Climate Change Impacts on Coastal Chattogram of Bangladesh: Trends, Vulnerabilities, and Adaptation Strategies; Marine Spatial Planning and Zoning for Sustainable Blue Economy in Bangladesh EEZ: Challenges and a Roadmap for Integrated Governance.

TRAININGS

- Python Programming: Zero to Expert in 40 Days | DSD Research Firm | Online | Issued 26 March 2026.
- Coastal and Regional Ocean Community (CROCO) Model | BMU | Offline | Issued August 2025.

AWARDS AND LANGUAGES

- **VC Scholarship** in BSc (Hons) Oceanography for outstanding academic performance (2022, 2023, 2024).
- **NST Fellowship (2025-26)**, Ministry of Science and Technology, Government of Bangladesh

LANGUAGES

- Bangla: Native/Fluent | English: Excellent/Professional Working Proficiency.
